

MOLECULAR MECHANISTIC BIOLOGY

Community for PhD Students

Please join us for an information session and a chance to hear about our current students' research on:

Wed, Nov 14, 5 – 6 pm in SGM 106

Refreshments will be served

MMB is an interdisciplinary research community focused on studying the molecular mechanisms of health and disease. It places a focus on community building, faculty mentoring, and professional development.

MMB applications for 2018 are due on Dec 14 (all G1-G3 students can apply)
